

# Artis zee Cockpit

One workplace. Complete control.

[www.siemens.com/healthcare](http://www.siemens.com/healthcare)

**SIEMENS**

A woman with dark hair, wearing blue scrubs, is shown in profile, looking towards a computer monitor. The monitor displays a medical image with a red line, likely a live feed from a Siemens Artis zee imaging system. The background is a plain, light-colored wall.

# One workplace.

Complex interventional procedures require a growing number of dedicated systems in addition to the Siemens Artis zee imaging system to support patient treatment. These systems need to be operated from the control room desk, every system with its own monitor, with its own mouse and keyboard. The result, multiple displays and keyboards on one desk.

**It's time to clear up your workplace.  
It's time for the Artis zee Cockpit.  
One monitor, one mouse, one keyboard.**

# Clear up your control room.

A woman with dark, wavy hair and bangs, wearing a bright blue jacket over a white top, is shown in profile from the chest up. She is sitting at a light-colored desk, looking towards the right. The background is a plain, light-colored wall. The overall scene is clean and professional, illustrating a modern control room environment.

Create more free space to work efficiently in the control room – with Artis zee Cockpit. This innovative concept finally clears things up – by eliminating multiple keyboards, mice and monitors. You can bundle and operate up to six compatible sources on one workplace.

**For more convenience and greater comfort.**

# Imaging Excellence. zee more.

Whether it's for radiology, cardiology, electrophysiology or surgery, the Artis zee Cockpit can accomplish great things in the control room. With sharp details, pure colors and high brightness, the 30-inch medical-grade monitor delivers excellent quality over the entire screen. Up to six inputs can be simultaneously displayed, with a choice of 4 different screen layouts. Images can be easily rearranged using the unique drag & drop functionality.

You simply see more – all on a single screen.

- ▶ 30" dual HD medical-grade monitor (4 megapixel)
- ▶ Image drag & drop

Enhanced Workflow.

# Work efficiently.

How many workstations do you have to keep running in the control room every day? Stop running from one workstation to the next – and let the Artis zee Cockpit consolidate your data in one display. Up to six sources can be displayed on the screen, and users can control the connected workstation by simply double-clicking on the image.

**One monitor, one keyboard, one mouse – and one single workplace to handle all your control tasks.**

- ▷ 4 different screen layouts
- ▷ 6 video sources in one screen
- ▷ Full control by a double-click in the image

Investment Confidence.

# Save space.

In the future, less will simply be more – and Artis zee Cockpit, the newest member of the Artis zee family, shows how. For you, it means fewer control room monitors, less space needed, and less time spent.

**With so much more efficiency in the control room, you can now focus on what's most important: your procedure and your patient.**

- ▷ Frees up the space taken by up to 4 workplaces in the control room\*
- ▷ Considerably reduces the heat given off by up to 4 monitors

\*Assuming 1 sq. m. per monitor and 2 sq. m. for the Artis zee Cockpit

Complete Control.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens sales organization worldwide. Availability and packaging may vary by country and are subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States or other countries.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features that do not always have to be present in individual cases.

Siemens reserves the right to modify the design, packaging, specifications and options described herein without prior notice. Please contact your local Siemens sales representative for the most current information.

In the interest of complying with legal requirements concerning the environmental compatibility of our products (protection of natural resources and waste conservation), we recycle certain components. Using the same extensive quality assurance measures as for factory-new components, we guarantee the quality of these recycled components.
