**SIEMENS**

# Artis zee Large Display

Siemens streamlines workflow through every phase of complex interventional procedures helping clinicians operate at the leading edge of a dynamic medical field. Featuring a full-color 56-inch medical-grade screen that lets you choose the best screen layout for the planned procedure step at tableside.

## A must zee

### Medical-grade display

With its 8 megapixel image resolution (3840 x 2160 pixels), the medical grade Artis **zee** Large Display serves up crisp views in a quality that is four times that of high definition (HD).

### All on one screen

Featuring a large 56-inch active screen, the Artis **zee** Large Display provides you with an overview of the critical information you require on one screen.

### zee it your way

With up to 12 different screen combinations to choose from directly at tableside, you can organize and view your screen data virtually any way you want.

## Artis zee Large Display Key features at a glance

- 56" active full-color medical-grade monitor
- 8 megapixel resolution at 4 x HD (3840 x 2160 pixels)
- Fully integrated tableside control
- Connect over 20 image sources

## The whole picture at a glance

### Screen layouts on demand

Up to 12 preset screen layouts offer you extreme viewing flexibility at tableside, allowing you to choose the optimal image configuration for each procedure step.

### View the information your way

Select from over 200 layout configurations at setup, allowing you to enlarge and alter individual windows as needed to match your clinical requirements.

### Don't miss a thing

Display input from over 20 sources simultaneously to easily monitor all relevant information.

## Improve your views and your prospects

### Configure to taste

Unlike conventional monitor systems, the Artis **zee** Large Display provides tremendous screen configuration flexibility for multi-users and multi-specialties.

### Leading technology

The medical-grade Artis **zee** Large Display raises the bar for in-room data visualization, providing a whole new level of image viewing quality and workflow efficiency.

### Collateral applications

With over 20 video source inputs, the Artis **zee** Large Display can also be used to monitor other rooms, as well as for telemedicine, telcon, endoscopy, ultrasound and more.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens sales organization worldwide. Availability and packaging may vary by country and are subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States or other countries.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features that do not always have to be present in individual cases.

Siemens reserves the right to modify the design, packaging, specifications and options described herein without prior notice. Please contact your local Siemens sales representative for the most current information.

In the interest of complying with legal requirements concerning the environmental compatibility of our products (protection of natural resources and waste conservation), we recycle certain components. Using the same extensive quality assurance measures as for factory-new components, we guarantee the quality of these recycled components.
