

Efficiency for you and more comprehensive scans for your patients

Learn more about the
Biograph mMR, the world's
first simultaneous whole-body
Molecular MR.

Now at ABC Imaging Center
000-000-0000

Biograph mMR offers simultaneous PET and MRI scanning across the body in ONE scan. It's the world's first system to combine these two technologies into one state-of-the-art system. With 3T MRI and cutting-edge molecular imaging, the **Biograph mMR** offers a more comprehensive, detailed scan for a revolutionary way to diagnose, treat and manage disease in oncology, neurology and cardiology.

Now available at ABC Imaging Center.
