

Work, Better

Work, Tailored

Work, Assured

Better efficiency

Automated focus, frequency, and time gain compensation (TGC) settings help to shorten operation and exam times

Better viewing

Expanded image display assists in enhancing screen visibility from a distance

Better flexibility

View ultrasound images and enter patient data from your Windows® tablet with the ACUSON Freestyle™ mobile link app*

Better design

Compact, lightweight design enables easy transportation and positioning

Better timing

Expedited boot-up time gives you "on-demand" access in approximately 30 seconds

Tailored clarity

Advanced Pixelformer™ technology produces uniformity and clarity throughout the entire field of view

Assured innovation

Partner with a reliable industry leader in modern healthcare

10x Faster

Assured delivery

High-speed data transfer delivers real-time information up to 10x faster than a 4G smartphone

Tailored scanning

3-meter wireless range promotes improved operational mobility

Assured connectivity

Wireless networking, including Enterprise Authentication, is built in for secure connectivity

Tailored focus

Enhanced needle visualization aids in reducing imaging challenges in difficult-to-scan patients

Assured freedom

Submersible, cable-free transducers and batteries aid in maintaining the sterile field for improved infection control

Tailored technique

Integrated transducer controls enable remote operation of all imaging parameters

Cable-free Efficiency

Modern Healthcare, Meet Modern Technology
