

## Work, Better

## Work, Tailored

## Work, Assured

### Better efficiency

Automated focus, frequency, and time gain compensation (TGC) settings help to shorten operation and exam times

### Tailored clarity

Advanced Pixelformer™ technology produces uniformity and clarity throughout the entire field of view

### Assured innovation

Partner with a reliable industry leader in modern healthcare

**10x** Faster

### Assured delivery

High-speed data transfer delivers real-time information up to 10x faster than a 4G smartphone

### Better viewing

Expanded image display assists in enhancing screen visibility from a distance

### Better flexibility

View ultrasound images and enter patient data from your Windows® tablet with the ACUSON Freestyle™ mobile link app\*

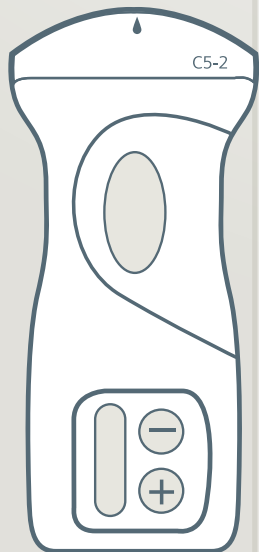

### Tailored scanning

3-meter wireless range promotes improved operational mobility

### Assured connectivity

Wireless networking, including Enterprise Authentication, is built in for secure connectivity

### Better design

Compact, lightweight design enables easy transportation and positioning

### Better timing

Expedited boot-up time gives you "on-demand" access in approximately 30 seconds

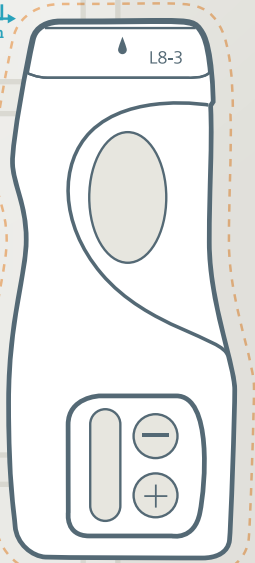

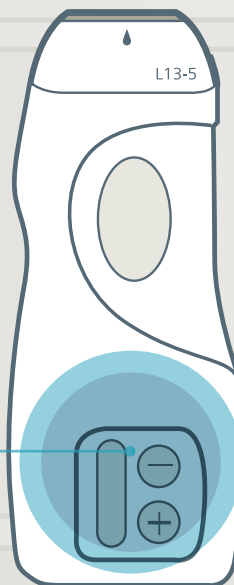

### Tailored technique

Integrated transducer controls enable remote operation of all imaging parameters

### Tailored focus

Enhanced needle visualization aids in reducing imaging challenges in difficult-to-scan patients

### Assured freedom

Submersible, cable-free transducers and batteries aid in maintaining the sterile field for improved infection control

# Cable-free Efficiency

Modern Healthcare, Meet Modern Technology
