Precision Meets Versatility for a Complete Cardiology Solution.

ACUSON X300 Ultrasound System, Premium Edition (PE)

Standalone clinical images may have been cropped for better visualized pathology.

ACUSON, AcuNav, TGO, Velocity Vector Imaging and X300 are trademarks of Siemens Medical Solutions USA, Inc. and syngo® is a registered trademark owned by Siemens Healthcare GmbH. CartoSound and Soundstar are registered trademarks of Biosense Webster, Inc.
The complete cardiology care platform.

Everything you need to get to the heart of the matter—thoroughly, efficiently.

We designed the ACUSON X300™ ultrasound system, premium edition (PE), from the ground up to help you and your team deliver excellent cardiology care—day in and day out. By leveraging our decades of imaging innovations, this powerful ultrasound system gives you superior imaging performance across a range of cardiovascular applications.
Intelligent design takes center stage.

The ACUSON X300 PE has it all: quality design and precision imaging in a lightweight, mobile platform—making it the ideal system for multi-use environments.

Working smart was never more streamlined.

Whether you operate in a private practice, an EP lab or a hospital, the ACUSON X300 PE, provides a range of powerful cardiology-based workflow tools that boost your efficiency, enhance diagnostic quality and simplify repetitive processes.

- Knowledge-based workflow tools including syngo® Velocity Vector Imaging™ technology, syngo® Auto Left Heart (Auto LH) and syngo® Arterial Health Package (AHP)* automate workflow for improved efficiency.
- TGO® tissue grayscale optimization technology provides one button image optimization.
- QuickStart rapid reboot and battery operation for instant access to imaging.
- ACUSON AcuNav® ultrasound catheter and Biosense Webster CartoSound® communication provide enhanced visualization and navigation during complicated intracardiac procedures.

*This feature should be utilized according to the ASE Consensus Statement “Use of Carotid Ultrasound to identify Subclinical Vascular Disease and Evaluate Cardiovascular Disease Risk: A Consensus Statement from the American Society of Echocardiography Carotid Intima-Media Thickness Task Force, Endorsed by the Society for Vascular Medicine.”
Price is a Number. Value is Our Promise.

The ACUSON X300 PE is designed to be compatible with a variety of options and future updates, offering you long-term investment protection and flexibility to fit your budget. Providing the right value with your purchase is one of the ways that Siemens earns the trust of our customers. Since 1953, Siemens has been pioneering ultrasound to discover industry-leading solutions that help more people live healthier lives.

Service at Your Fingertips.

Siemens offers a variety of service plans that suit the needs of different healthcare environments—delivering both superior support and valuable cost savings for any size clinic, cardiology practice or medical setting. Siemens’ coverage options provide protection from unexpected costs as well as fast and attentive service—allowing you to stay focused on the people in your care.
Dual Screen Imaging
Highlights mitral valve and allows visualization of regurgitant jets during different cardiac cycles in this technically different patient.
