Help Improve Patient Outcomes by Using a More Intelligent Urine Strip

Performance-driven urinalysis solutions from Siemens Healthineers support early detection, monitoring, and management of diseases. Powered by our proprietary Auto-Checks technology, our urinalysis reagent strips provide fast, reliable insight into patient health.

When paired with our industry-leading CLINITEK family of analyzers, urine strips from Siemens Healthineers enhance testing accuracy and workforce productivity by automating your testing environment, eliminating human subjectivity and transcription errors, and reducing unwarranted variations.

Siemens Healthineers offers the widest range of urinalysis products on the market to meet all your testing needs. You can count on more than 75 years of continuous innovation in urinalysis to give you peace of mind and help you deliver high-quality results with confidence.
