At Siemens Healthineers, our purpose is to enable healthcare providers to increase value by empowering them on their journey towards expanding precision medicine, transforming care delivery, and improving patient experience, all enabled by digitalizing healthcare.

An estimated 5 million patients globally benefit every day from our innovative technologies and services in the areas of diagnostic and therapeutic imaging, laboratory diagnostics and molecular medicine, as well as digital health and enterprise services.

We are a leading medical technology company with over 170 years of experience and 18,000 patents globally. With more than 48,000 dedicated colleagues in 75 countries, we will continue to innovate and shape the future of healthcare.

Comprehensive Urinalysis Solutions for Every Healthcare Setting

Siemens Healthineers Point of Care tests help you improve clinical outcomes and deliver results with confidence.
Optimize the Diagnostic Experience

Siemens Healthineers provides one of the most comprehensive and trusted urinalysis portfolios, from the point of care to the central lab. The same reagent strip technology standardizes testing at every location, delivering consistent, high-quality, reproducible results with each strip and every test.

Our Portfolio of Urinalysis Solutions

Fast, reliable, and focused on results

Multistix® 10 SG Reagent Strips
Ten parameters for important markers on a single strip provide reliable frontline screening and monitoring for chronic-disease management:
- UTI
- Diabetes
- Kidney stones

Multistix PRO 10 LS Reagent Strips
A comprehensive strip for routine urine testing including a more robust protein assessment. Provides a protein-to-creatinine ratio result which automatically adjusts for urine concentration, all in one minute.

CLINITEST® hCG Pregnancy Test
Helps you to quickly identify or exclude pregnancy. Reliable instrument-read results eliminate interpretation and provide accurate answers.

CLINITEK® Microalbumin 2 Reagent Strips
Provide fast, targeted screening for patients at risk for kidney disease. CLINITEST® Microalbumin 2 strips deliver albumin, creatinine, and albumin-to-creatinine ratio results, enabling you to quickly assess your patients’ kidney health.

Uristix 4 Reagent Strips
Reliable screening solutions for female patients of every age. From UTIs and bladder infections to diabetes and kidney disease, Uristix 4 strips help you assess and treat these patient conditions with confidence.

Ictotest
Provide fast and reliable confirmatory test for bilirubin. The presence of bilirubin is an important finding in the evaluation of liver function and a positive detection could be an indication of liver disease such as jaundice, cirrhosis or hepatitis.
