The Future of Personalized Medicine

Siemens Clinical Laboratory – Your Resource for Companion
Diagnostics Solutions and High-Complexity Testing

www.siemens.com/scl

Answers for life.

Working Together to Expand the Boundaries of Companion Diagnostics and Realize the Potential of Personalized Medicine

Siemens Clinical Laboratory (SCL) develops innovative, high-complexity testing solutions to advance personalized medicine. Partnering with leading pharmaceutical companies, SCL provides cutting-edge companion diagnostic test development and serves as an expert clinical laboratory for specialized, high-complexity laboratory developed tests (LDTs) for use in clinical trials. In addition, through our CLIA-accredited laboratory, we offer a portfolio of high-complexity testing services to support our referring laboratory customers and their physicians.

A Legacy of Leadership and Innovation

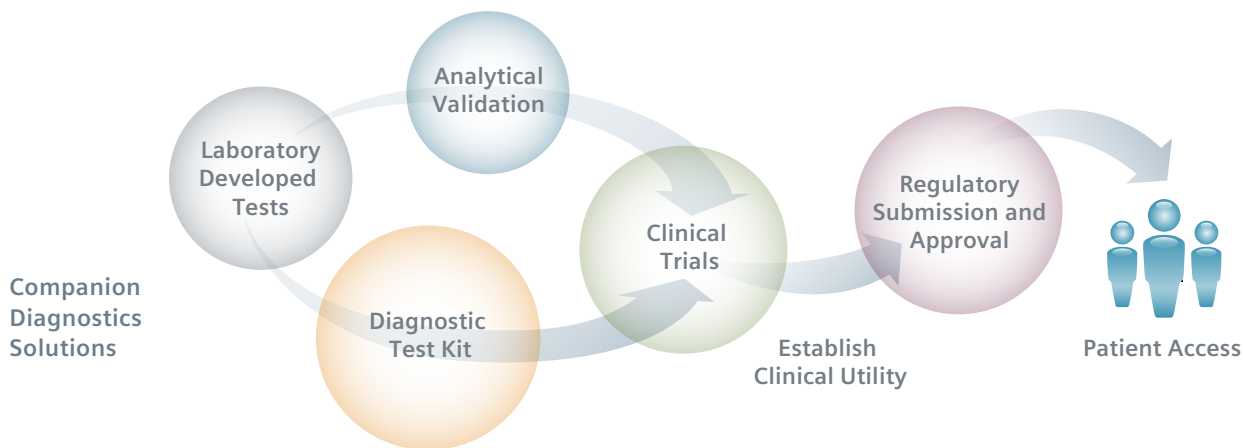

A wholly owned entity of Siemens Healthcare Diagnostics Inc. and based in Berkeley, California, SCL is uniquely positioned to provide both clinical and regulatory expertise as well as comprehensive global perspective. As an active participant in the California clinical laboratory community, SCL also offers professional education and formal internship programs, and has been supplying accurate, reliable reference and back-up testing services to Siemens' U.S. laboratory customers for over 18 years.

Siemens Clinical

“Siemens’ presence in the emerging companion diagnostics market enables us to leverage our innovation capabilities and deep clinical knowledge to help improve pharmaceutical drug safety and effectiveness.”

Michael Reitermann
CEO, Siemens Healthcare Diagnostics

The Power of Collaboration

Combining a diverse array of leading-edge technologies with extensive regulatory, quality, and design-control process expertise, SCL accommodates the most demanding diagnostic needs of next-generation therapeutics. With nearly two decades of molecular-testing services experience, we are able to support our pharmaceutical partners at every stage of their therapy development process—from test conceptualization through test development—for companion diagnostic applications.

In addition, as part of a leading diagnostics company, SCL offers our partners new opportunities for test deployment through our worldwide customer base and test development on a wide variety of proprietary technology platforms.

“Our partnership with Siemens Healthcare Diagnostics is a valuable part of our commitment to addressing patient needs through developing innovative treatment approaches.”

Dr. John Pottage
Chief Scientific and Medical Officer, ViiV Healthcare

“We believe that developing the necessary diagnostic tests with the right diagnostic partner is an important component for [our] successful commercialization.”

Dr. Harry E. Gruber
CEO, Tocagen Inc.
