# teampay Fleet

Streamline your fleet management.  
Optimize your asset performance.

When a growing population and increasing numbers of patients compete with limited resources, such as staff, medical equipment, and budgets, the need to manage your equipment efficiently can become a major challenge. For example, you need to collect and analyze equipment data efficiently to support informed decision-making, but also plan how to optimize the usage of your equipment to meet your patient volume. At the same time, cybersecurity attacks pose a threat to you and your reputation while lower budgets and rising costs limit your investment flexibility.

teampay Fleet, a teampay digital health platform solution, enables you to streamline the management of your fleet from Siemens Healthineers and to optimize your asset performance holistically, 24/7, and from any browser capable device.

teampay Fleet provides a broad range of features:

- **teampay Fleet View** – save time by having the detailed equipment data you need at hand to make informed decisions at any time, across all your institutions
- **teampay Fleet Maintenance** – provide excellent patient care by optimizing the usage of your assets through efficiently managed and planned equipment performance
- **teampay Fleet Cybersecurity** – protect your patients' data and your reputation by keeping your equipment up-to-date
- **teampay Fleet Evolution** – make sound decisions on your future portfolio investments based on detailed knowledge of the options or upgrades available for your equipment

teampay Fleet connects you with your entire Siemens Healthineers medical device fleet

**SIEMENS**  
Healthineers

# teamply Fleet features a broad range of solutions to help you in managing your fleet

**teamply Fleet View** provides insights into your overall equipment status as well as equipment specifics and speeds up finding equipment-related information such as documents, trainings, and contract information.

**teamply Fleet Maintenance** Manage your service activities centrally and save time when contacting Customer Services at Siemens Healthineers through a quick and guided online ticket creation mechanism when you require support.

**teamply Fleet Cybersecurity** Conveniently monitor the cybersecurity status of your fleet and achieve a new level of transparency with access to equipment-specific vulnerability assessments. With Anytime Software Updates, you can self-install updates and keep your equipment current at your convenience.

**teamply Fleet Evolution** Easily see where your equipment is in its lifecycle and identify future investment possibilities according to the installation date and age of your equipment.
