

# ECCMID 2019

29th ECCMID  
13–16 April 2019

RAI Amsterdam  
Europaplein  
NL 1078 GZ  
Amsterdam, Netherlands

## At ECCMID 2019, you will learn how Siemens Healthineers is shaping the future of healthcare, so you can drive better outcomes.

Siemens Healthineers offers molecular laboratories over 80 kits covering 140 pathogens. Our large infectious disease menu provides both syndromic panels and singleplex assays.

Explore our latest platform-agnostic solutions for infectious disease testing using the syndromic approach. Meet our experts and learn more about our growing menu of real-time PCR multiplex kits for viruses, bacteria, fungi, and parasites.

*Product availability may vary from country to country and is subject to varying regulatory requirements. Please contact your local representative for availability.*
