Siemens Financial Services is an international provider of customized financial solutions with long-term experience in the healthcare sector. Its advantage is an unique combination of technology and financing expertise obtained in partnership with Siemens Healthineers. Siemens Financial Services enables investments in the healthcare sector through the provision of commercial finance, project and structured finance, and leveraged finance and insurance.

Extensive healthcare industry expertise and a deep understanding of healthcare assets are the foundations of our healthcare finance team. The Siemens Financial Services experts have a deep understanding of technology and its role in patient care, including medical imaging, laboratory diagnostics, and healthcare information technology – and they apply this to developing customized financial solutions.

Every investment decision is also a financial decision

#501 EXPO X5

This brochure serves general information purposes. It does not contain and shall not be interpreted as an offer to enter into a financing agreement. A financing agreement can only be considered on the basis of the individual circumstances.

The financing solutions described in this brochure are part of the portfolio of Siemens Financial Services (SFS) – the finance unit of Siemens. SFS offers a multitude of financing solutions through its regulated and unregulated affiliate companies in various jurisdictions. A financing solution may or may not be offered in a certain jurisdiction, in particular if it is subject to the local regulatory requirements.
Benefiting from financing expertise at ECR

Siemens Financial Services is right around the corner – you will find them at the main Siemens Healthineers’ booth next to the information desk opposite Digital Health.

The Siemens Financial Services experts will be happy to talk with you at the booth or attend meetings with your current and potential customers. Just let them know. They look forward to seeing you.
