Recording Off-line Files to CD/DVD

Please refer to manual for complete system capability

www.siemenslearningcenter.com

1. When recording off-line files H:\CDR_OFFLINE, e.g. .avi files to CD/DVD, select “Record Off-Line Files” from the Transfer Menu of the Patient Browser.

2. If “Record Off-Line Files” is grayed out, make sure Local and Network Job Status are both empty of jobs.

3. If not empty, select the existing jobs and Delete.

4. Once cleared, “Record Off-Line Files” will be available. **ALL** items saved in H:\CDR_OFFLINE will export to media.
