Manual Archiving of Patient Studies
Please refer to manual for complete system capability

1. Select the Patient Browser

2. Select the Patient, Scenes, or Images with a single left mouse click. Double left mouse clicking will open the study for review.

3. From the top main menu, select
   Transfer > Send to… A dialogue box will appear with available network nodes

   OR

   Select the icon from the toolbar on Patient Browser

4. Data will be sent to selected archival destination

5. After completion of transfer, a confirmation message will appear in the status line. Transfer status can be checked under Network Job status from the top main menu. Select Transfer > Network Job status
