

Innovations '18

for Imaging

April 24–26, 2018
Aria Resort & Casino
Las Vegas, NV

The more you know, the better their care.

Innovations for Imaging delivers a unique opportunity for technologists and managers to network, gain knowledge, and improve leadership skills that positively impact healthcare outcomes.

Two program components are offered:

Managers Program

April 24–25, 2018

Enhance management capabilities through leadership seminars and keynote presentations. Analyze healthcare-specific scenarios and problem solve with peers. Topics include managing conflict in the workplace, influencing skills, building high performance teams, developing exemplary leadership skills, and motivational intelligence.

Professionals Program

April 25–26, 2018

Maximize the use of imaging equipment from Siemens Healthineers. Choose from more than 50 relevant topics to improve efficiencies and patient care outcomes. Network with colleagues, speakers, industry vendors, and product experts. Joint sessions, designed to inform and inspire, allow attendees to collaborate with peers outside of their clinical expertise, resulting in a broader educational experience.

New this year are radiography biomedical engineering breakout sessions focused on application training, wireless communication technology, and Siemens Healthineers customer support.

Attendance in the Professionals Program is open to customers of Siemens Healthineers only. We reserve the right to question and/or refuse any registration. All Innovations for Imaging registrations are subject to verification.

To receive the best value, select the Combined Program registration option.

Register Now!

Registration closes on Monday, April 9, 2018.

Why attend Innovations for Imaging?

- Gain useful ideas that you can use in your own setting to improve outcomes and patient experiences.
- Increase utilization of Siemens Healthineers systems by advancing skills and knowledge.
- Manage more effectively by gaining insight into exceptional leadership tools and techniques.
- Earn CE credits, collaborate with colleagues, and share best practices.

New This Year!

Attend Innovations and Share the Virtual Experience with a Colleague!

Qualify for one individual to experience Innovations virtually via "live stream" for every two onsite all-inclusive registrations (package includes registration, lodging, and airfare). The virtual program covers the entire MRI professional or CT professional track sessions—the choice is yours. The deadline date for both onsite attendees to register in order to receive the virtual attendee seat has been extended from December 31, 2017 to February 28, 2018. Cancellation of either onsite registration will also cancel the seat for the virtual attendee.

Innovations '18 for Imaging

The more you know, the better their care.

Who should attend Innovations for Imaging?

- Healthcare managers
- Supervisors
- Technologists
- Sonographers
- Related clinical professionals

Does your facility have unused education funds that you can use to attend the Symposium?

Find out by calling 1-888-221-8010 or sending an email to educationcainnovation.team@siemens-healthineers.com

How many continuing education credits can you earn?

- Managers Program – earn up to 12 CECs
- Professionals Program – earn up to 12 CECs
- Combined Program – earn up to 18 CECs

Credits are pending approval from accrediting organizations, but are covered by the registration fee. The fair market value of each credit is \$15 and is not refundable to those attendees who do not receive credits. You must attend all educational sessions to qualify for the maximum number of educational credits offered.

*"The Innovations for Imaging Symposium was awesome and incredibly beneficial. I found every single course I attended to be directly relevant to what we are currently doing, or trying to do, at my facility. This was probably the most useful conference I've ever attended. Thank you so much for a great experience!"**

Amy Johnson, RN, BSN, Nurse Manager
St. Joseph Medical Center, Kansas City, MO
