

## Innovations for Imaging

# Highlights and Testimonials

Leadership · Knowledge · Networking

Innovations for Imaging, Siemens Healthineers annual education symposium, offers a unique opportunity for technologists and managers to network, gain knowledge, and improve leadership skills that positively impact healthcare outcomes. Don't miss this chance to earn education credits while networking with your colleagues.

---

### Opportunity to earn Continuing Education Credits

- Managers – up to 12
  - Professionals – up to 12
  - Combined – up to 18
- 

### Managers Program

Sharpen management skills through leadership workshops and training seminars. Address healthcare-specific scenarios and share experiences with peers. Topics\* include resiliency, navigating difficult conversations, respect in the workplace, motivating employees, the changing landscape of healthcare, and healthcare technology and innovation.

### Professionals Program

Maximize the efficient use of imaging equipment from Siemens Healthineers and get answers to clinical questions. Attend modality education sessions focused on improving efficiencies and patient care outcomes. Joint sessions, providing soft skills training, allow attendees to collaborate with peers outside of their clinical expertise, resulting in a broader educational experience. Joint sessions include topics\* such as teamwork, managing change, stress in the workplace and how it can impact patient safety, managing stressful situations, and the leadership mindset.

### Combined Program

Manager Program attendees can maximize their Innovations experience and receive the best value by registering as a Combined Program attendee and extending their stay through the Imaging Professionals Program.

*\*topics subject to change*

**Innovations for Imaging delivers world-class education... through expert speakers from some of the nation's most prestigious healthcare institutions, specifically selected to share insights and address key topics facing the healthcare profession today.**

**To learn more, visit the Innovations for Imaging website at [siemens-healthineers.us/InnovationsforImaging](https://www.siemens-healthineers.us/InnovationsforImaging)**

## Hear what your peers are saying about the conference!

*"The part of this conference that keeps me coming back is the knowledge that I receive from the sessions, and the networking I've done with plenty of people. I bring back so much education to my staff, and I'd come back every year if I could. I've made tons of contacts and friends at the conference that I still talk to since the first time I attended four years ago."*

**Justin Rodriguez, Manager of Image Quality**

*"I believe that Innovations is far superior to other conferences that I've been to. They do a great job of finding out what we need as technologists and managers and putting together great agendas. The speakers are fantastic! You walk away with a whole lot of information."*

**Jennifer Thomas, Lead Imaging Technologist**

*"When you come to this type of event, you're exposed to so many great new technologies that you can explore and have the time to get into and evaluate to see what will work for your facility. It is a lot of fun to meet with technologists, other staff, and all of the doctors, and learn so much about what is new and exciting in radiology!"*

**Terri-Ann Gizienski, Breast Radiologist**

The outcomes and statements provided by customers of Siemens Healthineers are unique to each customer's setting. Since there is no "typical" hospital and many variables exist (e.g., hospital size, case mix, and level of service/technology adoption), there can be no guarantee that others will achieve the same results.
