Luminos dRF: Restoring an Image from the Recycle Bin

1. Note: only unarchived images (i.e. images that have not been sent to PACS) will be available in the recycle bin.

2. Select Patient Mode > Settings > Recycle Bin

3. Note: If the Recycle Bin icon is not available, it can be activated in the User Settings.

4. Left-click to highlight the patient whose images you would like to restore.

5. Select the Restore Icon.

6. Close the Recycle Bin by Left-clicking the Recycle Bin icon again

7. The image(s) you restored are now on the Examined Patients list.
