How to Set PHS Automatic Height

1. Use your hand remote to raise or lower your pallet to the height you want it to be.

2. Select the Height button you want this setting to represent. (Either Gurney Height or Wheel Chair Height)

3. Depress and Hold the Gurney or Wheelchair Button on the hand control for at least seconds or until you hear a beep.

4. The new auto height is now set.

5. To use the auto height, select the desired button on the hand controller.
