Viewing a Sinogram on Biograph Version VG30 and Higher

1. To view a sinogram on the Biograph system, open the Patient Browser.

2. Highlight the PET Raw Data series.

3. In the lower part of the Patient Browser, the instances are displayed. Highlight the sinogram instance of the raw data series.

4. Click the Sinogram Editor button in the toolbar.

5. To view the sinogram, click the View Sinogram button on the Sinogram Header Edit dialog box.

6. The Sinogram Viewer will be displayed.

7. For more information on viewing the sinogram, consult the Operator Manual. If you have further issues or questions, please contact Siemens Uptime Service Center at 1-800-888-7436.
